## How To Use This Catalog

### Introduction:

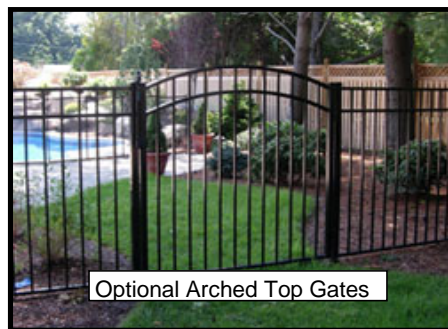

Our catalog has been designed to make it as simple and as easy as possible to use. All the fence styles, posts and gates are on one page so you don't need to look on multiple pages to find what you are looking for. Just follow the steps listed below and you will see how easy it is to use.

- Step 1.**----- Choose the style, residential or commercial and the height of fence you are looking for. What is the purpose of the fence, pool safety, pet containment, defining the property line or security.  
**Note: Residential sections are 6' Long and the commercial sections are 8' long**
- Step 2.**----- Choose the gauge and length of post you wish to use. Remember the posts should be at-least 2' longer than the section height. Taller styles 5' and 6' you may want the posts to be 3' longer
- Step 3.**----- Choose the type of post you will need. They will be either End Post, Line Posts, Corner Post or Blank Posts. Gate posts need a heavier gauge post ( 2" x .125 or 2-1/2" Posts for single gates ) Double Drive gate posts should be 2-1/2", 3" or 4" Posts.

- Step 4.**----- Choose the width and the height of gate you desire. Our gates are offered in two styles. The first style is a flat top design which matches the fence sections and the second option is what we call an arched top gate which adds **150.00 each** per gate to the cost of the standard gates.

Custom size gates are available. There is an additional 125.00 fee for each custom gate size

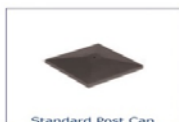

- Step 5.**----- Choose the color

NOTE: Brown has been discontinued

- Step 6.**----- Choose any options you would like to add to the fence. Quad-Finials, Tri-Finials, Fleur de les, Circles, Scrolls, Butterflies or ball caps. Remember to always check the style of fence you have chosen to make sure the options you chose will work with that particular style of fence
